## DOLFINN

Following Finn Kayaks tradition of bringing paddling to the people we have created the 'Dolfinn'; a super stable wave-ski style sit-on kayak that is suitable for paddlers at all levels. Multiple footwells allow paddlers of various heights to comfortably use this craft, with seating positions provided for one or two persons. Outfitted with end-loops, drainage bung, removable skeg, padded centre seat, seat belts for two and cushioned footstraps, the 'Dolfinn' is ready to go anywhere. At only 20 kilograms it is easily handled by one person. For increased safety special flotation foam is incorporated internally for extra buoyancy as verified by the 'Dolfinn' being listed as 'Hire Boat Approved' by the Department of Transport. The 'Dolfinn' is truly a craft that everyone can enjoy, able to be paddled as a double or a single by children and adults alike, by lazy day river cruisers to thrill seeking surf chasers, the 'Dolfinn' is the most versatile craft suited to all lifestyles.

### 'DOLFINN' DIMENSIONS
